

Create Service Credential

The screenshot shows the IBM Cloud console interface. The top navigation bar includes the IBM logo, a search bar, and user information. The left sidebar shows the 'Resource list' with 'Cloudant-y4' selected. The main content area is titled 'Service credentials' and includes a description: 'You can generate a new set of credentials for cases where you want to manually connect an app or external consumer to an IBM Cloud service. [Learn more](#)'. Below this is a table of service credentials with columns 'Key name' and 'Date created'. A single credential, 'Service credentials-1', is listed with a creation date of '2022-11-16 3:29 PM'. To the right of the table is a 'New credential' button. Below the table, a JSON snippet displays the credential details:

```
{
